

LEARNING TO COUNT IN 2S UP TO 10

- Use five Numicon 2 shapes to make a twos track. Play games using a spinner or die to stop/go etc, as above to match shapes then number cards 2, 4, 6, 8, 10.
- Practise counting items in twos up to ten—socks are a good idea, first in pairs then make each pair into a ball and count again in twos.
- Line up toys/pennies in twos and count in twos.
- Stick 2ps to Numicon 2 shapes and count in twos.
